

Boeing Delivers 4th P-8I Maritime Patrol Aircraft to India

Boeing Delivers 4th P-8I Maritime Patrol Aircraft to India

SEATTLE, May 23, 2014 – Boeing [NYSE: BA] has delivered the fourth P-8I maritime patrol aircraft to India on schedule, fulfilling the first half of a contract for eight aircraft.

The aircraft departed from Boeing Field in Seattle and arrived May 21 at Naval Air Station Rajali, where it joined three P-8Is currently undergoing operational evaluation.

“This marks an important milestone – the halfway point for P-8I deliveries to India,” said Dennis Swanson, BDS vice president in India. “The program’s success the past year is really a testament to the great work between Boeing, the Indian Navy and industry.”

Based on the company’s Next-Generation 737 commercial airplane, the P-8I is the Indian Navy variant of the P-8A Poseidon that Boeing has developed for the U.S. Navy.

“The Indian Navy is putting the first three P-8Is through their paces operationally, and the P-8I delivered today will begin flight trials in the coming months,” said Leland Wight, Boeing P-8I program manager.

The P-8I incorporates not only India-unique design features, but also India-built subsystems that are tailored to the country’s maritime patrol requirements. In order to efficiently design and build the P-8I and the P-8A, the Boeing-led team is using a first-in-industry, in-line production process that draws on the company’s Next-Generation 737 production system.

The P-8I features open system architecture, advanced sensor and display technologies, and a worldwide base of suppliers, parts and support equipment. P-8I aircraft are built by a Boeing-led industry team that includes CFM International, Northrop Grumman, Raytheon, Spirit AeroSystems, BAE Systems and GE Aviation.

Boeing offers India a broad spectrum of defense, space and security solutions that are relevant to India's current and future military and humanitarian needs. Boeing India’s corporate office is in New Delhi. For more information, visit www.boeing.co.in.
