

Boeing Delivers Polynesian Airlines' First Next-Generation 737

Polynesian Airlines took delivery of its first Boeing Next-Generation 737-800 airplane. The airplane will be leased through International Lease Finance Corporation. "The Boeing 737 airplane is a great fit for our route expansion plans and gives Polynesian Airlines the ability to operate direct services from Apia, Samoa to Australia and Honolulu," said Richard G. Gates - Polynesian Airlines managing director and chief executive officer.
