First Boeing Business Jet 2 Delivers

The Boeing Business Jet 2 (BBJ 2), seen here taking off from Renton Municipal Airport, has a maximum range of 5,750 nautical miles (10,650 kilometers) and requires less than 7,000 feet (2,135 meters) of runway. The first two BBJ 2s delivered this month to undisclosed customers. The BBJ 2 is based on Boeing's popular Next-Generation 737-800 and has 25 percent more cabin area and twice the luggage space of the BBJ.
