Oman Air Continues Expansion Plans With New Boeing 737-700

Oman Air continues its aggressive fleet and market expansion program with the arrival of the newest Boeing airplane in its fleet, a 737-700. This airplane was purchased as part of a five-airplane order that will replace Oman Air's current fleet of Airbus A310s and older Boeing airplanes. For more information on Oman Air, please visit its website at <http://www.oman-air.com>.
