

Media Advisory -- Boeing Delta IV Launch Set for First Air Force EELV Mission

Media Advisory -- Boeing Delta IV Launch Set for First Air Force EELV Mission

A Boeing [NYSE: BA] Delta IV rocket is scheduled to launch the first satellite for the U.S. Air Force Evolved Expendable Launch Vehicle program on Mar. 8 from Cape Canaveral Air Force Station (CCAFS), Fla.

Liftoff is scheduled during a 77-minute window that opens at 6:44 p.m. EST from Space Launch Complex 37B.

A Delta IV Medium launch vehicle configuration will deploy the Defense Satellite Communications System (DSCS) spacecraft, DSCS III A3, to a geosynchronous transfer orbit.

Boeing will provide a Web cast of the launch.

A unit of The Boeing Company, Integrated Defense Systems is one of the world's largest space and defense businesses. Headquartered in St. Louis, Boeing Integrated Defense Systems is a \$25 billion business. It provides systems solutions to its global military, government and commercial customers. It is a leading provider of intelligence, surveillance and reconnaissance; the world's largest military aircraft manufacturer; the world's largest satellite manufacturer and a leading provider of space-based communications; the primary systems integrator for U.S. missile defense; NASA's largest contractor; and a global leader in launch services.
