

Boeing 777-300ER Completes 330-Minute ETOPS Test Flight

Boeing 777-300ER Completes 330-Minute ETOPS Test Flight

The Boeing 777-300ER, shown here in an earlier flight, successfully completed a 330-minute Extended Operations (ETOPS) flight. The 330-minute test was the longest, single-engine demonstration flight ever recorded in support of ETOPS certification.
