

Boeing Unveils AeroMexico's First 737-700 with Blended Winglets

AeroMexico's first Boeing 737-700 nears completion with the airplane prepped for addition of Blended Winglets at the Goodrich Aviation Technical Services facility, Everett. On Wednesday, AeroMexico executives, including Sr. VP Marketing Alejandro Yberri, pictured, reviewed progress. The airplane is scheduled to fly to Mexico on Monday, Oct. 20, in preparation for an Oct. 22 delivery ceremony.
