### **Kenya Airways First Boeing 777-200ER Arrives in Nairobi**

Kenya Airways celebrated delivery of the airline's first Boeing 777-200ER (Extended Range), pictured here taking off on a test flight from Paine Field, near Everett, Wash. Kenya Airways is adding the airplane to its all-Boeing fleet of 737 and 767 airplanes. The airline has two additional 777-200ERs on order, scheduled for delivery in 2005.

Kenya Airways' 777-200ER is the first airplane to incorporate Boeing's enhanced lighting system, offering improved passenger comfort through a number of colored lighting scenarios.
