Boeing and Air Force Scrub GPS IIR-12 Launch Again for Weather

The launch of the Global Positioning System (GPS) satellite, GPS IIR-12, aboard a Boeing [NYSE: BA] Delta II rocket from Cape Canaveral, Fla., has been scrubbed again due to continued thunderstorm activity.

Boeing and the U.S. Air Force will make another launch attempt on Wednesday, June 23. The 27-minute window opens at 6:54 p.m. EDT.

A unit of The Boeing Company, Integrated Defense Systems is one of the world's largest space and defense businesses. Headquartered in St. Louis, Boeing Integrated Defense Systems is a \$27 billion business. It provides systems solutions to its global military, government and commercial customers. It is a leading provider of intelligence, surveillance and reconnaissance; the world's largest military aircraft manufacturer; the world's largest satellite manufacturer and a leading provider of space-based communications; the primary systems integrator for U.S. missile defense; NASA's largest contractor; and a global leader in launch services.
