

Turkey's First Peace Eagle Aircraft Rolls Off Boeing Production Line Telescope Servicing and De-orbit Contract

Turkey's First Peace Eagle Aircraft Rolls Off Boeing Production Line Telescope Servicing and De-orbit Contract

Turkey's first Peace Eagle aircraft, a 737-700, rolled off the-production line at Boeing's Commerical Airplanes facility in Renton, Wash. Modifications will transform it into an airborne early warning and control (AEW&C) platform. Turkey has ordered four 737 AEW&C aircraft.
