### **ANA's newest Boeing 777-300ER is shown during pre-delivery testing**

ANA's newest Boeing 777-300ER (Extended Range) is shown during pre-delivery testing at Paine Field in Everett, Wash. The aircraft is the second of ten new 777-300ER aircraft being delivered to ANA featuring the Connexion by Boeing high-speed Internet service and the first to receive an in-line installation. ANA passengers will soon be able to access the Internet on their laptops via a choice of wired or wireless connections in First Class, Club ANA and Premium Economy, or wirelessly in Economy.
