Boeing 787 Dreamliner Selected by Qantas for Jetstar International Routes

Qantas Airways Limited has selected the Boeing 787 Dreamliner for its Jetstar subsidiary's international routes. Qantas plans to order 45 airplanes with 20 options and purchase rights for 50 additional jetliners. The 787 will provide economic and passenger comfort advantages that will allow Qantas to compete effectively while adding or increasing services. Qantas recently announced Jetstar's plans to launch international flights from Australia in the future.
