# **Boeing 777-200LR Worldliner Certified to Carry Passengers Around the World**

The world's longest-range commercial jetliner, the Boeing 777-200LR Worldliner, now is certified by U.S. and European authorities to enter into passenger service with airlines around the world. The 777-200LR (Longer Range) is the fifth and newest model of the market-leading 777 family.

The 777-200LR is capable of connecting virtually any two cities in the world nonstop. In service it can carry 301 passengers up to 9,420 nautical miles (17,445 kilometers).
