Boeing Statement Regarding Flyington Freighters Announcement for 777 Freighters

Boeing today issued the following statement:

The Boeing Company is pleased to have signed a purchase agreement with Flyington Freighters, which will be the first India-based cargo airline to operate widebody freighters. Flyington Freighters will purchase four Boeing 777 Freighters , subject to the airline obtaining the necessary statutory clearances. The Boeing 777 Freighter is the world's largest and most capable twin-engine freighter, with a revenue payload capability of 229,000 pounds (103 metric tons) and a range of 4,895 nautical miles (9,065 km).
