

Boeing 747-400 Large Cargo Freighter Completes First Flight

Boeing 747-400 Large Cargo Freighter Completes First Flight

The first 747-400 Large Cargo Freighter, a specially modified fleet of airplanes that will transport the major components of the 787 Dreamliner, gracefully takes to the skies on its first flight. The 747 Large Cargo Freighter will complete initial flight tests in Taiwan before flying to Seattle.
