

Boeing Delta IV Launches Critical Military Weather Satellite

Boeing Delta IV Launches Critical Military Weather Satellite

A Boeing [NYSE: BA] Delta IV rocket today carried a Defense Meteorological Satellite Program (DMSP) satellite into orbit from Vandenberg Air Force Base, Calif. The launch was the second West Coast mission completed for the U.S. Air Force Evolved Expendable Launch Vehicle (EELV) program.

Liftoff of the Delta IV Medium occurred at 5:53 a.m. Pacific time from Space Launch Complex (SLC) 6. The DMSP-17 payload was successfully deployed approximately 18 minutes later.
