Oak Hill Capital Partners is Newest Boeing 777 Freighter Customer

Boeing today announced that Oak Hill Capital Partners has ordered six Boeing 777 Freighters.

Scheduled to enter service in fourth quarter 2008, the Boeing 777 Freighter brings unsurpassed efficiency to long-haul markets and will provide more capacity than any other twin-engine freighter. The 777 family has proven itself to be the leader in delivering twin-engine efficiency to the marketplace with lower fuel consumption, maintenance costs and operating costs.
