

Boeing and ST Aerospace Complete Door Cutting for First 767-300 Boeing Converted Freighter

Boeing and ST Aerospace Complete Door Cutting for First 767-300 Boeing Converted Freighter

The Boeing Company [NYSE: BA] and Singapore Technologies Aerospace Ltd (ST Aerospace) today announced that ST Aerospace's subsidiary, ST Aviation Services Company (SASCO), has completed the door cutting for the first 767-300 Boeing Converted Freighter (BCF). The aircraft was inducted Oct. 18 from All Nippon Airways (ANA), Boeing's launch customer for this programme. Pictured here cutting a ribbon to celebrate the completion of the door cutting are, from left: Dennis Floyd, vice president, Freighter Conversions, Boeing Commercial Airplanes; Hiroyuki Ito, member of the board of directors and executive vice president, Engineering & Maintenance, All Nippon Airways; and Tay Kok Khiang, president, ST Aerospace.
