Boeing Resumes Chinook Operations in Philadelphia

ST. LOUIS, May 15, 2008 -- The Boeing Company's [NYSE: BA] Rotorcraft Systems division in Philadelphia today resumed operations on the H-47 Chinook helicopter production line. All employees are reporting to work on their regularly assigned shifts.

Boeing will continue to cooperate with the Defense Contract Management Agency to close this incident. Boeing Rotorcraft Systems employees have worked to resolve the issues as quickly and efficiently as possible. Boeing remains committed to delivering products that meet or exceed stringent quality standards and operational requirements to the men and women of the U.S. Armed Forces and its allies.
