Boeing to Demonstrate Innovations in Space and Cyberspace at National Symposium

COLORADO SPRINGS, Colo., April 1, 2013-- Boeing [NYSE: BA] is highlighting its latest achievements in human spaceflight and exploration, as well as satellites and cyber capabilities, during the Space Foundation's 29th National Space Symposium, April 8-11 in Colorado Springs.

"We're collaborating with our NASA, defense, and commercial customers to provide affordable, innovative solutions in space exploration, satellites and cyber operations," said Roger Krone, president of Boeing Network and Space Systems. "During the symposium, we'll talk about some of the advances that are shaping how we integrate new and previously proven technologies to meet those customers' needs."

Also during the event, Boeing will sponsor the Gen. James E. Hill Lifetime Achievement Award, which will honor the late space pioneers Neil Armstrong and Sally Ride. It's the first time the award will be given posthumously.

Armstrong, the first person to walk on the moon, and Ride, the first American woman in space, died last year.

The Boeing exhibit at Booth 200 will include a full-scale model of the 702SP satellite and showcase current examples of satellite, cyber, and space technology advancements. Company representatives also will participate in the following discussions:

- John Elbon, Boeing vice president and general manager of Space Exploration -- "New Generation Leadership," April 8 at 3 p.m. Mountain time
- Antonio Nucci, chief technology officer of Boeing subsidiary Narus -- "Cyber 1.3 Panel --Humans Wanted? Humans Needed? The Future of Cyber," April 8, 3:30 p.m.
- Jim Simpson, Boeing vice president of Business Development for Space & Intelligence Systems -- "Long Term Sustainability of Space: Practices for the Future," April 11, 8:30 a.m.

Boeing's online press kit at www.boeing.com/boeing/bds/mediakit/2013/space13/index.page contains program backgrounders, executive biographies, and a link to high-resolution photos. Reporters may contact the media relations representatives listed below to schedule interviews with Boeing executives at the show.
