Boeing Statement on UK Air Accidents Investigation Branch Special Bulletin on July 12 787 Incident

SEATTLE, July 18, 2013 -- The safety of passengers and crew members who fly aboard Boeing airplanes is our highest priority.

As a party to the investigation, Boeing supports the two recommendations from the UK Air Accidents Investigation Branch (AAIB), which we think are reasonable precautionary measures to take as the investigation proceeds. We are working proactively to support the regulatory authorities in taking appropriate action in response to these recommendations, in coordination with our customers, suppliers, and other commercial airplane manufacturers.

We are confident the 787 is safe and we stand behind its overall integrity.
