

Boeing Business Jets, Comlux Announce Order for Two BBJ MAX 8s

First BBJ order for Comlux

BBJ MAX 8s will receive custom interiors at Comlux America

DUBAI, UAE, Dec. 8, 2014 /[PRNewswire](#)/ -- Boeing [NYSE:BA] Business Jets today announced an order for two BBJ MAX 8s to Comlux, a Swiss-based VIP charter operator. This marks Comlux's first BBJ order.

"The two BBJ MAX 8s are a great addition to the Comlux fleet because they give our customers the flexibility to fly farther and more comfortably thanks to the lower cabin altitude," said Richard Gaona, President and CEO, Comlux, The Aviation Group. "The long-range capability of the BBJ MAX 8 is critical to all of our customers, but especially our Middle East customers who often use Comlux aircraft for long-haul flights."

The two BBJ MAX 8s will be outfitted with custom interiors at Comlux America, a certified BBJ completion center.

"This announcement from a leading charter operator highlights the unmatched range, passenger comfort and baggage capability that BBJ products provide," said Capt. Steve Taylor, president, Boeing Business Jets. "We are pleased to work with Comlux as they position their fleet for the future."
