

Gena Lovett Joins Boeing Defense as Vice President of Operations

Gena Lovett Joins Boeing Defense as Vice President of Operations

Will oversee manufacturing, quality and safety for \$31 billion unit

Led one of Alcoa's largest plants and was chief diversity officer

ST. LOUIS, Aug. 3, 2015 – Gena Lovett is joining Boeing [NYSE: BA] as vice president of Operations for Boeing Defense, Space & Security (BDS). She has more than 20 years of leadership experience in both operations and manufacturing.

Lovett will be responsible for manufacturing activities at 20 major installations around the world along with the safety, lean manufacturing, quality, and supplier management initiatives that BDS is pursuing.

“Gena brings a deep understanding of advanced manufacturing that will further our efforts to integrate and adapt new technologies to differentiate BDS from our competitors,” said Chris Chadwick, BDS president and CEO. “Based on her past success turning around underperforming operations, I’m confident of her ability to take our already high-performing team to the next level.”

Lovett succeeds Bill Schnettgoecke, who retired after 36 years with Boeing.

She previously served as Alcoa’s director of manufacturing from 2007 to 2011 and most recently as the company’s chief diversity officer. Prior to that, Lovett held numerous leadership positions at Ford Motor Co. during a 15-year career which culminated as plant manager of Prototype Operations.

A unit of The Boeing Company, [Defense, Space & Security](#) is one of the world's largest defense, space and security businesses specializing in innovative and capabilities-driven customer solutions, and the world’s largest and most versatile manufacturer of military aircraft. Headquartered in St. Louis, Defense, Space & Security is a \$31 billion business with 53,000 employees worldwide. Follow us on Twitter: [@BoeingDefense](#).
