

Boeing to Provide Optimal Leased Aircraft Management for Montrose Global Aircraft Leasing Limited

Boeing to Provide Optimal Leased Aircraft Management for Montrose Global Aircraft Leasing Limited

AerData's Corporate Management System solution drives efficient operations

AMSTERDAM, Nov. 28, 2017 – Boeing [NYSE: BA], through its subsidiary AerData, recently signed an agreement with Montrose Global Aircraft Leasing Limited (MGALL) to support their existing fleet of 45 aircraft and accounting systems with AerData's Corporate Management System (CMS) hosted solution.

"We are looking to grow, and CMS will allow us to do that," said Nick Brice, Montrose Global Technical director. "We chose AerData because of its reputation in the marketplace and are confident that it will be a smooth transition and great partnership."

MGALL will consolidate data from multiple sources using the single CMS platform. The platform reduces risk for lessors by giving them full control and oversight of asset values, contract information and technical details. It also helps save time and money by using direct connections to existing financial systems.

"CMS helps lessors be more efficient and more effective by consolidating data pertinent to the lifecycle management of leased assets," said Matt Bull, AerData CEO. "We are pleased that Montrose Global has chosen AerData CMS to assist in growing their business by leveraging software to increase efficiencies in their operations."

More than 60 leasing companies worldwide use AerData systems to support their business.

About AerData

AerData, a Boeing Company provides lease management, records management, engine fleet planning and audit and inspection software as well as technical and back office services for aircraft and engine operators, lessors and MROs. AerData is part of the Digital Aviation and Analytics business unit within Boeing Global Services.

Boeing Global Services, headquartered in the Dallas area, was formed by integrating the services capabilities of the government, space and commercial sectors into a single, customer-focused business. Operating as a third business unit of Boeing, Global Services provides agile, cost-competitive services to commercial and government customers worldwide.

About Montrose Global Aircraft Leasing Limited

Montrose Global Aircraft Leasing Limited (MGALL) is an aircraft leasing company headquartered in Ireland, with offices in Dublin, London, Singapore and Australia. Montrose offer their services to a worldwide customer base, currently leasing aircraft to regional airlines in more than 18 countries.
