

Boeing to Focus on Safety, Innovation and Partnerships at 2019 Dubai Airshow

Boeing to Focus on Safety, Innovation and Partnerships at 2019 Dubai Airshow

- Interactive exhibit highlights how Boeing and partners are building the future together
- Boeing 787-9 Dreamliner on flying display; Etihad 787-9, Emirates 777-300ER and Boeing PAV on static display
- Defense static displays include F-15, KC-46, H-47 and V-22

CHICAGO, Nov. 11, 2019 /[PRNewswire](#)/ -- Boeing (NYSE: BA) will showcase its broad portfolio of commercial and defense products, services and technologies at the 2019 Dubai Airshow, which runs November 17-21 at Dubai World Central. The company's presence and activities at the show will focus on safety, innovation and industry partnerships in the growing Middle East market.

At Boeing's exhibit, visitors can immerse themselves in a 360-degree theater and learn more about the company's capabilities throughout the product life cycle. An interactive display will highlight Boeing's latest family of aircraft and services, as well as the company's vision for the future of mobility. A seating mock-up and virtual reality experience will offer visitors a closer look at the 777X. The exhibit will be located near the main entrance of the exhibit hall (1110).

On the airfield, a Boeing 787-9 Dreamliner will demonstrate the breakthrough capabilities and innovations that have made it a favorite of both operators and customers. This unique 787 sports a full-body decal celebrating the Employees Community Fund of Boeing, the company's employee-managed charitable fund. An Etihad 787-9, Emirates 777-300ER and a Boeing Passenger Air Vehicle (PAV) will be on static display.

The U.S. Department of Defense also will display several Boeing platforms at the show, including an F-15E fighter, an MV-22 tiltrotor and a KC-46A tanker. The UAE will showcase a CH-47F Chinook helicopter.

Boeing's market outlook values the Middle East commercial airplane and services market at more than \$1.5 trillion over the next 20 years. Boeing also anticipates 40% of defense and space opportunities in the next decade will originate outside the U.S., with strong platform and services growth opportunities in the Middle East.

Company leaders will discuss these market opportunities and other topics at a series of media briefings during the show. Media attending the show should check the daily briefing schedule at the Boeing Chalet, located on the flight line directly outside the rear of the exhibition hall (A21-24). Media also can sign up to receive Boeing updates via email [here](#).¹
