Boeing Delivers Watchstander Integrated Security Solutions to Delaware Refinery

Monitoring network delivered three weeks after signing contract

DELAWARE CITY, Del., Oct. 16, 2013 – A Boeing [NYSE: BA] security network, delivered just three weeks after it was ordered, is now helping protect a critical refinery complex along the Delaware River.

Watchstander Integrated Security Solutions, composed of intelligence, surveillance, and reconnaissance sensors and systems, is providing continual real-time monitoring of waterways around the Delaware City Refinery southwest of Philadelphia. The 5,000-acre site is one of the largest on the U.S. East Coast.

“Watchstander has already been successfully deployed with federal, state and local agencies, includingDelaware County [Pa.],” said Mike Hettmann, director of Tactical Intelligence, Surveillance and Reconnaissance for Boeing. “That proven technology and experience allowed us to deliver a cost-effective solution in only three weeks.”

Watchstander is one of Boeing’s many C4ISR capabilities that provide a seamless flow of information – from collection to aggregation to analysis – for customers’ enduring need for situational awareness. The breadth of these capabilities can be experienced online at www.boeing.com/advertising/c4isr.

A unit of The Boeing Company, Boeing Defense, Space & Security is one of the world's largest defense, space and security businesses specializing in innovative and capabilities-driven customer solutions, and the world’s largest and most versatile manufacturer of military aircraft.
