Boeing Statement on 737 MAX Simulator Training

Boeing is recommending 737 MAX simulator training in addition to computer based training for all MAX pilots prior to return to service of the 737 MAX. This recommendation takes into account our unstinting commitment to the safe return of service as well as changes to the airplane and test results. Final determination will be established by the regulators.

“Safety is Boeing’s top priority," said interim Boeing CEO Greg Smith. "Public, customer and stakeholder confidence in the 737 MAX is critically important to us and with that focus Boeing has decided to recommend MAX simulator training combined with computer-based training for all pilots prior to returning the MAX safely to service.”
