Boeing and Singapore Sign Data Sharing Agreement

- Agreements between Boeing and DSTA will establish data exchange infrastructure

- Both entities will exchange data in order to analyze and deliver analytics diagnostics for Singapore's F-15SG fighter aircraft fleet.

SINGAPORE, Feb. 15, 2022 — Singapore's Defence Science and Technology Agency (DSTA) and Boeing [NYSA: BA] today signed project agreements that create a data exchange infrastructure to enable collaborative data analysis for the Republic of Singapore Air Force's F-15SG fighter aircraft.

The data exchange pipeline will store and facilitate the analysis of supply chain data for the F-15SG aircraft fleet, with the goal of developing predictive maintenance actions that will enhance the operational readiness of the Republic of Singapore Air Force.

"We are grateful to continue our partnership with DSTA to use the power of digital tools to reduce sustainment costs and increase aircraft readiness. Data analytics are just one part of our growing digital ecosystem of innovative services," said Ted Colbert, President and Chief Executive Officer, Boeing Global Services.

As a leading global aerospace company, Boeing develops, manufactures and services commercial airplanes, defense products and space systems for customers in more than 150 countries. As a top U.S. exporter, the company leverages the talents of a global supplier base to advance economic opportunity, sustainability and community impact. Boeing's diverse team is committed to innovating for the future and living the company's core values of safety, quality and integrity. Learn more at www.boeing.com.
