

Boeing Statement of Support on Former Santa Susana Field Laboratory Cleanup Framework

ARLINGTON, Va. May 9, 2022 – Boeing today released the following statement:

"Boeing supports the comprehensive framework with the State of California as it provides a clear, accelerated path forward for Boeing's cleanup at the former Santa Susana Field Laboratory. The framework protects the important environmental and cultural resources at the site, which will never be developed under a conservation easement. It is a win for California and reflects Boeing's deep commitment to safety, sustainability and the communities where we live and work."
