Boeing Statement on Poland’s KRUK Attack Helicopter Program

WARSAW, September 8, 2022 — The Government of Poland today announced that Boeing’s [NYSE: BA] AH-64 Apache has been selected for its KRUK Attack Helicopter program.

“Boeing is honored the Government of Poland has selected the AH-64E Apache for the Polish Armed Forces’ new attack helicopter fleet. An Apache selection strengthens U.S-Polish military ties by enhancing interoperability and cooperation between Poland, the U.S. Army and NATO nations. During the procurement process, Boeing established significant cooperative partnerships across Polish government and industry. Our partnership with the Polish Armaments Group in particular will continue to expand as we implement training and sustainment efforts with local industry.”
