

U.S. Army Orders Additional Enhanced CH-47F Block II Chinooks

U.S. Army Orders Additional Enhanced CH-47F Block II Chinooks

- Modernization continues with Block II technologies and enhanced design
- Six CH-47F Block IIs now under contract with first slated for Fiscal Year 2024
- Separate award provides Lot 3 advanced procurement funding

PHILADELPHIA, Oct. 3, 2022 —The U.S. Army is continuing to modernize its heavy-lift helicopter fleet with an order for two more Boeing [NYSE: BA] CH-47F Block II Chinooks and long lead funding for additional aircraft.

"Modernizing the Chinook for our Army customer is a priority," said Ken Eland, Boeing vice president and H-47 program manager. "CH-47F Block II improves readiness, limits future sustainment costs and provides commonality across the fleet. We're dedicated to making CH-47F Block II the best option for the Army's heavy lift mission, now and well into the future." The CH-47F Block II Chinook is powered by cutting-edge technologies — including redesigned fuel tanks, a strengthened fuselage and an enhanced drivetrain.

Last year, the Army awarded Boeing a \$136 million contract for the first four CH-47F Block II aircraft, which began production in April 2022. The Lot 2 order valued at \$63 million brings the total number of aircraft under contract to six. The separate Lot 3 advance procurement contract is valued at \$29 million.

Boeing's H-47 Chinook Block II expands upon 60 years of partnership with the U.S. Army. During that time, Boeing has delivered over 1,000 Chinooks to the U.S. Army, continuously modernizing the helicopter to meet evolving needs. The U.S. Army and 19 allied countries around the globe rely on the Chinook for its multi-mission capabilities including equipment and troop transport, humanitarian assistance and disaster relief.

As a leading global aerospace company, Boeing develops, manufactures and services commercial airplanes, defense products and space systems for customers in more than 150 countries. As a top U.S. exporter, the company leverages the talents of a global supplier base to advance economic opportunity, sustainability and community impact. Boeing's diverse team is committed to innovating for the future, leading with sustainability, and cultivating a culture based on the company's core values of safety, quality and integrity.
