Statements about UPS Flight 2976 and the MD-11 Freighter

Nov 8, 2025

We support the FAA's airworthiness directive. With safety as our top priority, we had recommended to the three operators of the MD-11 Freighter that they suspend flight operations while additional engineering analysis is performed. We will remain in close communication with the operators as they work to follow the requirements of the airworthiness directive.

Nov 7, 2025

With safety as our top priority, we recommended to the three operators of the MD-11 Freighter that they suspend flight operations while additional engineering analysis is performed. This recommendation was made in an abundance of caution and we will continue coordinating with the FAA on this matter.

Nov 5, 2025

We extend our deepest condolences to the families and friends of those who lost their lives in this accident. Our thoughts remain with those who were injured, as well as the first responders, the Louisville community, and the team at UPS. A Boeing technical team is supporting the NTSB's investigation.

Nov 4, 2025

We are following the news out of Louisville regarding UPS Flight 2976. Our concern is for the safety and well-being of all those affected. We stand ready to support our customer and have offered technical assistance to the NTSB.
