

## Statement on U.S. Navy's Undergraduate Jet Training System program

**ST. LOUIS, June 12, 2026** - Boeing is focused on meeting our commitments, and we bid for programs where we believe we can provide the right solution tailored to our customers' needs and requirements. After careful evaluation, we have determined the T-7A does not meet the U.S. Navy's Undergraduate Jet Training System requirements. We have therefore informed the Navy that we will not bid on the current RFP. We remain committed to delivering the T-7A as a modern, growth-oriented training solution for 4th, 5th and 6th generation pilots as requirements evolve. We look forward to providing and sustaining both current and future capabilities for the Navy.
